TORONTO, April 2.

Messrs Greenway and Martin arrived here from Ottawa and left for Winnipeg last night. Mr. Greenway was seen but said he had nothing more to say than has appeared in the papers. It is said he will interview President Oakes, of the Northern Pacific, and President Hill, of the St. Paul, M. & M., railways while in St. Paul, with reference to the entrance of these roads into Winnipeg.

OTTAWA, April 2.

Another batch of rumors concerning the terms of the C. P. R. monopoly are published to-day. It is said the form which the settlement is taking, is the purchase of a big tract of land from the company. The Government will pay them fourteen or fifteen millions of dollars for land in the railway belt at \$1.50 per acre, in this way the railway company will get money, which it needs, and the Government will get back again ten million acres of fertile land.

To-morrow Senator Schultz's committee on the Resources of the Mackenzie River basin, will meet, and the delegation, Messrs. Craig, Bain and MacArthur, will be interviewed.

LONDON, April 2.

Famished deserters from the ranks of King John's army continue to arrive at Massowah. Detachments of Abyssinian troops are already retiring to the hills.

MONTREAL, April 2.

Western bond trade over the C.P.R. is booming this spring. Officials say passenger service is being severely taxed by the tide of immigration which is flowing into Manitoba and the Northwest, from all parts.

About 400 emigrants for the North-west arrived at Quebec via Halifax to-day.

OTTAWA, April 2.—Before the Senate committee on Resources of Mackenzie River Basin, Capt. Craig, Dr. Bain and Mr. MacArthur were examined to-day.

Capt. Craig made a very important statement. He said the present population could rise, if they chose, thirty thousand bushels of grain; that the climate was very healthy; he knew of the existence of silver, gypsum, moulding sand, lime and other stone for building. The committee will again meet to-morrow, when others from Prince Albert will testify.

Sir Charles Tupper occupied his seat in the House this evening, for the first time since the debate on reciprocity commenced.

BRANFORD, April 3.—At the notice Gilbert was found guilty of the attempted murder of Edward Blake in February last.

OTTAWA, April 4.—Retaliation was the battle cry to-day, in which Peter Mitchell, contraband, testified the Premier.

At a meeting of the railway committee this morning, the act incorporating the Chisholm Belt and Peace River Valley railway came up for consideration. It was explained there was some difference of opinion regarding the Bill that would interfere with the rights of another company already incorporated.

The Bill to amend the M. & N. W. railway charter was next taken up. The company wanted the number of miles to be completed annually, reduced from 50 to 20. An interesting discussion took place upon amendment moved by R. Watson that it should not be lawful for the company to amalgamate or lease its line to any other railway company without the consent of the Lieutenant-Governor in Council.

Messrs. Mulock and Edgar supported the amendment. Mr. Scott, however, if it was not withdrawn he would withdraw the Bill. The amendment was lost and the Bill approved. During the discussion the Hon. Thos. White paid a high compliment to the company, saying it was one of the very few which had fulfilled all its obligations.

PRINCE ALBERT, March 30.—The roller mill owned by R. May was completely destroyed by fire this morning. Loss ten thousand dollars, and no insurance.

MONTREAL, March 30.—A fire this morning destroyed R. Heaume's furniture and picture frame factory. Loss \$75,000, no insurance \$27,000.

We have a few novelties in gent's neck wear, very cheap. Walters & Baker.

Mr. Sam. McLeod has opened up his new establishment, in the building lately erected by Mr. John Stewart, where he has a large stock of fine hats and shoes.

Mr. R. C. McKenzie, Indian Agent at Duck Lake, is in town. He started for Fort a la Poudre, but got no farther than the South Branch on account of the depth of water on the ice on that river.

Broom 20c., Pails 30c., Wash Boards 30c., Tubs 50c., at Walters & Baker's.

All parties requiring goods of any description should take advantage of the great sale now going on at Walters & Baker's. It will last but a short time when the heavy goods are disposed of the balance will be packed up and taken away.

We are informed that Andrew, a younger son of Mr. Wm. Miller, ex., had both of his feet badly frozen this week. The weather was not very cold, but he was driving some cattle in from the creek and got his feet wet, and had to travel about four miles before he reached home.

To protect the eyes at this season of the year the colored eye shades, eyeglasses and goggles in various styles and shades, as sold by T. E. Jackson are highly recommended.

The meeting of the fire company was not a success last Wednesday evening as there were only four members who put in an appearance. The people most interested in this matter will let it go on, before taking hold, until some of them get scorched, then they will not blame themselves for the non-formation of a new company. If they block the young men who have no interest or stake in the matter are going to jeopardize their lives for the fun there is in it, they are greatly mistaken. Messrs. Lambdons who had better get a move on very soon.

A handsome black walnut finished bedroom suite for sale, cheap. Apply to H. Walters.

The carnival in aid of the band fund was not as great a success, financially, as might have been expected, although they took in \$29. A very large number were present in costume among them were Miss Dismuth, who looked charming as a "Highland Lassie" and captured the first prize; Mr. Geo. Oakley, a "Highland" look the gentleman prize, Mrs. A. hard, for which she was awarded the prize for sundries, and Maggie McKay got the girls' prize. Mrs. Korman made a very pretty "Nonnandy Pandy"; Miss Bala Dismuth, "Ballet Girl"; Messrs. W. J. Campbell, "Parti colored Gent"; Chas. Nyssen, "Boy Volunteer"; A. A. B. Sprout, "Nigger"; H. A. THE LIQUOR QUESTION.

This question is now engaging the attention of the Northwest, and is one with which, if reports be true, the people will very soon be called upon to decide. It is very probable that the Dominion Parliament will not deal with the question any further than to give the Northwest Council power to legislate in the matter. The question before the people will be whether we are to have a license system or total prohibition, or some half way measure such as breweries and beer or the system now in force, and already many people take the ground that it should be made the main and in fact the only issue at the next local election, that the candidates should and must be prohibition and anti-prohibition, and other matters of public interest must occupy a secondary place. We take the ground that such a position is wrong, that the electors should not be called upon to support men whose only qualification may be that they hold certain views with regard to the liquor traffic. The election should not be conducted on such principles. The best men should be elected, men of ability and known probity, and who are known to have the general welfare of their particular district as well as the Territories generally at heart, and men who could be depended on to carry out the wishes of the people. A plebiscite might then be taken on the liquor question. To save expense it might be taken simultaneously with the election, and should be by ballot, as it is only by a ballot vote that the true feelings of the people could be obtained on this question. We are aware that there are many men who would not be ashamed to vote for liquor if they could do so secretly, but would not do so by open vote; and on the other hand many who are opposed to liquor would be intimidated or influenced to vote contrary to their convictions unless the ballot sheltered them. Open voting would undoubtedly strengthen the prohibition cause.

But we do not want that. We want the free and untrammelled expressions of opinion of the people of the Territories on this question, as it is one of vast importance and one which must affect the interests of all, and the liberties and privileges of a large number whichever way it may be decided.

LEGAL INTELLIGENCE.

THE SUPREME COURT.

The court opened on Tuesday, 27th ult, in the new court house. His Honor Judge McGuire on the Bench.

There was a very meagre docket before this sittings and none of the cases of any importance except that of the Queen vs. Leslie. It will be remembered that some time ago Const. A. Leslie, of the N. W. M. T., was arrested as a vagrant on the information of Mr. T. Oram, was tried and convicted by a bench of magistrates; from that conviction Leslie now appealed. His Lordship, while holding that the conviction was valid in form and should on that ground be quashed, to satisfy counsel went into the merits of the case, and on hearing all the evidence made out an order quashing the conviction with costs. Brewster & McKay for applicant. Maclester contra.

There were only three other cases on the list.

The next sittings of the court will open on the 15th of May, when some important cases will be tried.

Mr. McEllan has received part of his large stock of harness and saddlery and has commenced business in the same building as Mr. S. McLeod.

We have received from the author, Mr. H. K. Peacock, of Ottawa, a very interesting paper entitled "Tales of Western Life." The book is well worth a perusal, some of the occurrences narrated and scenes depicted being familiar to Prince Albertites. The author was at one time, during the troubles of 1885, a member of the Mounted Police force, came up here from Regina with Col. Irvine and had his feet both frozen during the trip. He gives a graphic description of whiskey smuggling on the C. P. R., when that line was being constructed north of Lake Superior, and a thrilling account of the experiences and suffering of a policeman lost on the prairie in a blizzard, and under the title "Eric" are depicted the vicissitudes and fate of a pair of outlaws.

SCHOOL EXAMINATIONS.

A public examination of the papers presented by the Public School, district No. 3, was held on Thursday of last week. In the forenoon the pupils divided under the care of Miss McGregor, and put through a series of exercises. A large number of people, particularly those most interested, were present, and all were highly pleased with the progress made by the smaller children. From the very reliable manner in which the junior children acquitted themselves, it was quite evident that Miss McGregor has been very pains taking and successful in the performance of her duties.

In the afternoon Mr. Stull's department was subject to a thorough examination of the various subjects taught in the school. A large number of parents and others were present during the examinations, which were oral, and were conducted by Mr. Stull, his ten teachers. The pupils, although some of them are very far advanced, showed a marked improvement and answered all questions put to them with great readiness and correctness, and showed clearly that as far as they had gone they had a thorough knowledge of the work covered during the past term. The examination in geography, spelling and arithmetic were particularly good. The scholars entertained the visitors by recitations and singing, which were exceedingly well rendered. After the close of the exercises, short speeches were delivered by the Rev. Canon Flett, Inspector of Schools, the Rev. Mr. Howard, and Messrs. Johnson and Betts all paying a high compliment to Mr. Stull for the manner in which the school was progressing. Mr. Stull replied, thanking the visitors present for their attendance and for the interest manifested by them in his work.

We would like to invite the public when in Prince Albert to give us a call. Our stables are the most central in town—next door to Queen's Hotel.

We keep the largest and best Livery and Feed Stable in town.

We have a lot of new horses and rigs, second to none west of Winnipeg—go live on reasonable terms.

You will always find good, reliable and accommodating men night and day at our stables to attend to your wants.

All our horses are first-class livery horses and can be driven by ladies; particular care has been taken to purchase horses of that class. You can always depend on getting the best treatment in town at the Grand Union Stables.

N. B. We do not advertise in one paper to contradict it in another, as that constitutes a falsehood, but we keep the best Livery and Feed Stable—and at the lowest price in town.
